

CSHT808TC HOME THEATER SURGE PROTECTOR

Powerful surge protection for your home theater equipment

The CyberPower Home Theater Series CSHT808TC Surge Protector is ideal for home entertainment and home office protection. With 2850 joules, it offers premium protection for HDTVs, cable/satellite receivers, personal computers, cable modems, phones, printers, stereos, and CD/DVD players.

The CSHT808TC features 8 surge-protected outlets, including 4 widely-spaced outlets to accommodate larger plugs and an 8-foot cord. The EMI/RFI filters block unwanted line noise for better picture and sound quality. MOV technology diverts any surges/spikes through the ground circuit to safeguard connected electronics and the surge suppressor. Data line inputs provide protection for networking and telecommunication devices.

A Limited Lifetime Warranty and \$300,000 Connected Equipment Guarantee ensures this surge protector has passed our highest quality standards in design, assembly, material or workmanship.
