CyberPower

PDU15MV26F Metered PDU

Engineered to distribute UPS, generator or utility AC power to multiple devices, servers and network/telecom equipment.

The CyberPower 26-outlet (26 Front) OU vertical rack mount metered power distribution unit (PDU15MV26F) provides 120V 15A output. It distributes power to 26 NEMA 5-15R receptacles from a single NEMA 5-15P plug, with unfiltered electrical pass-through. The current draw for connected equipment is displayed in amps on the front LCD for real-time load monitoring.

Designed for datacenters and other electrically demanding applications, this unit has a rugged, industrial-grade metal housing and a 10-foot AC power cord. It supports vertical, horizontal and wall mount installation, includes a cord retention tray and is ETL/ROHS certified.

A Lifetime Warranty ensures that this PDU is free of defects in design, assembly, material and workmanship.

Typical Applications

- Servers
 - Network Devices
 - Telecom Equipment

Features

- Metered PDU
- Real-Time Load Monitoring
- Industrial-Grade Metal Housing
- Lifetime Warranty
