

PDU30BVT20F Basic PDU

Engineered to distribute UPS, generator or utility AC power to equipment.

The CyberPower 20-outlet (20 Front) OU vertical rack mount basic power distribution unit (PDU30BVT20F) provides 120V 30A output. It distributes power to 20 NEMA 5-20R receptacles from a single NEMA L5-30P twist lock plug, with unfiltered electrical passthrough.

Designed for datacenters and other electrically demanding applications, this unit has a rugged, industrial-grade metal housing and a 10-foot AC power cord. It supports vertical, horizontal and wall mount installation, includes a cord retention tray and is ETL/ROHS certified.

A Lifetime Warranty ensures that this PDU is free of defects in design, assembly, material and workmanship.

Typical Applications

- Servers
- Network Devices
- Telecom Equipment

Features

- Basic PDU
- Switch-Free Design
- Industrial-Grade Metal Housing
- Lifetime Warranty
